

GETTING STARTED WITH SKM POWER TOOLS

November 26 - 27, 2020 | CitizenM Rotterdam Hotel
2-Day Training Course

- OBJECTIVE:** After this practical introduction training course, you will be able to use the SKM Power Tools for Windows (PTW) software efficiently.
- SCHEME:** The first day the instructor will give a presentation about SKM Power Tools and then he will demonstrate the software. The next day you will try PTW by yourself, with the support of the instructor. You can either do exercises handed out during the course, or implement a part of your own power system project in SKM Power Tools.
- CONTENTS:** You will get a lot of information, among which:
- Modular Design of SKM Power Tools for Windows
 - Documentation and Support
 - Creating a Project in PTW
 - Creating One Line Diagrams
 - Entering Data with the Component Editor
 - Executing Load Flow and Fault Studies with DAPPER and IEC_909/363
 - Creating Time-Current Curves (TCC) with CAPTOR
 - Using Arc Flash Evaluation
 - Presenting and Export the Input Data and Calculation Results
 - Working with Libraries
 - Practical Tips and Advices
- PARTICIPANTS:** Power engineers (BSc/MSc) from Europe with general computer skills and some knowledge of power systems analysis are the target audience.
- In practice the participants consist of:
- Engineers who never used PTW before
 - Engineers who want to refresh or extend their PTW knowledge
 - Managers who want to know exactly the possibilities of PTW
 - Engineers and managers who consider to purchase PTW
- INSTRUCTOR:** Hans Stutvoet MSc

- REFERENCE:** PDF documents of SKM Systems Analysis Inc. will be used for reference
- LOCATION:** CitizenM Rotterdam hotel, Gelderse Plein 50, Rotterdam, the Netherlands
